

## LANIVET PLAY AREA

Lanivet Parish Council is planning to improve the village play area by installing new, exciting play equipment – and we need your support.

We are currently exploring funding and grant opportunities to help make these improvements possible. Our plans include a Monkey Challenge climbing wall, a target trainer, and other fun, inclusive equipment designed to suit a wide range of ages and abilities.

These improvements would benefit local children, families, and visitors, helping to create a safer, more engaging space for everyone to enjoy.

If you think this new equipment would benefit you, your children, friends, or family, please like this post. Showing strong community support will help us demonstrate demand when applying for funding and grants.

Please also share this post with family and friends to help spread the word and strengthen our case.

Our aim is to make the play area a better, more inclusive space for the whole community, and this is the first step towards achieving that.

Keep an eye out for fundraising events coming soon – every bit of support helps!

Thank you for supporting Lanivet ❤️

Kind Regards

**Julie**
